🎓 SSC: Marathi Medium Highschool Ichalkaranji

EXPERIENCE

- Completed one-month internship in Exposys Data Labs as a Web Development intern

- Completed AICTE Cyber Security virtual internship.

PROJECT'S

- **ATM Card Approval System (November 2022- January 2023)**

The credit card approval system is an efficient and secure client-server-based application designed to facilitate the process of approving credit card requests from clients. Its primary purpose is to evaluate the eligibility of individuals who apply for a credit card and determine whether they meet the predefined criteria.

- **Portfolio website using React (Pursuing)**

It features a modern and responsive design, smooth navigation, and interactive elements. The site provides a comprehensive overview of my work, allowing visitors to explore my expertise and accomplishments in a visually appealing and user-friendly manner.

EXTRA CURRICULAR ACTIVITIES

- Coordinated and managed the annual "Infotsav" Event
- Co-Ordinator at Shark Tank
